

University Paris-Dauphine – “Governance and Regulation” Chair

Doctoral candidate (PhD Student) and Postdoctoral Fellow in Economics and Management

The « Governance and Regulation » Chair has three openings in economics and management: two for doctoral candidates, and one for a postdoctoral fellow. Candidates must have a solid background in economics (institutional and organizational economics, industrial organization, political economy, law and economics) or management (strategy and organization), and be familiar with applied analysis. Expertise in the economics of regulation or non-market strategies is preferable but not required.

About us: The Governance and Regulation Chair is a research program involving the University Paris-Dauphine — a leading University in Economics and Management in France —, businesses and regulatory agencies. Its working program include the political economy and institutional organization of regulation, the strategies of the various stakeholders involved in the regulatory game, the assessment of alternative modes of regulations; the digital, environmental and globalization challenges for the governance of industries and markets. The Chair offers an outstanding environment for scholarly publication and high-level communication of research to policy and business audiences.

PHD Position

The doctoral candidates will be working within the Research team made of researchers in economics, management, law, and political science. The doctoral candidates are expected to contribute to research projects in the political economy of regulation or on issues related to the regulation of specific industries. A special attention will be given to applicants with an interest for new business models or for the economics of data-driven markets. The candidate's main task will be to prepare a doctoral thesis. The thesis has to be undertaken at the University of Dauphine but can also be part of a joint supervision with another university.

Contract:

3-year fixed-term contract, renewable once (up to a total of 4 years maximum).
According to the French standards, the Post-Doctoral Researcher will be paid 18k€ net/year, which include social coverage

PROFILE:

- Master's degree in Economics or Management, with a significant focus on quantitative methods.
- Have the linguistic skills to evolve in a multilingual environment: fluency in English is necessary. A good understanding of a French will be considered an advantage.

Post-Doctoral Position

The post-doctoral candidate will be working within the Research team made of researchers in economics, management, law, and political science. He will be expected to contribute to research projects on the organization of regulation, and/or on the regulation of digital industries and data driven markets. This will involve exploitation of existing databases, and contribution to the development of innovative ones. Also, the Post-Doc will cooperate in the development of an editorial project in Institutional and Organizational Economics.

According to the French standards, the Post-Doctoral Researcher will be paid 28k€ net/year, which include social coverage.

Contract:

1-year fixed-term contract, renewable (up to a total of 3 years maximum).

PROFILE:

- PhD in Economics or Management, with a significant focus on quantitative methods.
- Have the linguistic skills to evolve in a multilingual environment: fluency in English is necessary. A good understanding of a French will be considered an advantage.

APPLICATION PROCEDURE

Review of applications will begin on 1 June 2017 and continue until the positions are closed. Application materials must be in PDF format and include a cover letter, a CV, a transcript of concluded university studies, one letter of reference, and the name, current position, and contact for two other potential referees, and, for the post-doc position, one paper authored by the applicant.

Applications should be sent to the Programme manager of the Chair : Chiara Caccinelli
